# THE KINCAID DIFFERENCE

## MORTISE AND TENON JOINTS

Kincaid's case construction features mortise and tenon joinery, a time-proven method of assembling two parts at a 90° angle.

## DRAWER GLIDES

For this collection, we offer a full-extension whisper-quiet drawer glide mechanism that allows a gradual, soft close to all drawers.

## DOVETAILING

Kincaid utilizes the best dovetail drawer construction for each application. Dovetails on the front and back create a drawer that will last for generations.

## FLOATING TOPS

Fully floating tops, ends, and raised panels in every Kincaid piece allow for expansion and contraction as the humidity changes in your home.

## ADJUSTABLE GLIDES

Adjustable glides are provided on all units for leveling doors and on select units for a center support.

## MULTIPLE STEP FINISHES

All Kincaid finishes utilize between a 16 and 26 step process ensuring depth and beauty in a time proven durable finish.

KINCAID® is a registered trademark of Kincaid Furniture Company, Inc., Hudson, NC 28638. This tearpad is a property of Kincaid Furniture Company, Inc., and possession does not constitute authority to purchase. Specifications shown are based on latest product information available at time of printing, and are subject to change without notice. Not responsible for typographical errors. Portolone TP01 6/15.

Kincaid, in keeping with its tradition in styling, materials and finish, crafts its furniture collections using primarily solid wood species selected for grain clarity, color coordination and design. Combinations of different solid wood species are used within each collection. Not all exposed surfaces of every collection are constructed of solid wood. Wood products, multi-layered plywood, veneers and laminates are used for certain structural elements, including exposed surfaces that support leather, cane wicker and other non-wood materials, as well as in select components including some decorative table tops, table skirts, bed rails, interior surfaces, back panels, pullout trays, serving surfaces, etc. Some of our furniture features metal, stone, marble, granite or a composite material with the appearance of these elements.
